Expressing its solidarity with the people and countries that suffer as a result of natural disasters and expressing also the deepest sympathy to all victims of the natural disasters that have struck in various parts of the globe,

Emphasizing once again the urgent need for concrete measures to reduce the vulnerability of societies to natural hazards, the loss of human lives and the heavy physical and economic damage that occur as a result of natural disasters, in particular in developing countries, small island developing States and landlocked countries,

Commending those countries, national and local institutions, organizations and associations that have adopted policies, allocated resources and initiated action programmes, including international assistance, for disaster reduction and, in this context, welcoming the participation of private companies and individuals,

1. Takes note of the report of the Secretary-General on the International Decade for Natural Disaster Reduction;[1]

2. Reaffirms that disaster reduction forms an integral part of sustainable development strategies and national development plans of vulnerable countries and communities;

3. Calls upon all States, relevant intergovernmental bodies and all others involved in the International Decade for Natural Disaster Reduction to participate actively in the financial and technical support for Decade activities, in order to ensure the implementation of the International Framework of Action for the Decade,[2] in particular with a view to translating the Yokohama Strategy for a Safer World: Guidelines for Natural Disaster Prevention, Preparedness and Mitigation and the Plan of Action contained therein[3] into concrete disaster reduction programmes and activities;

4. Commends all countries, in particular those developing and least developed countries, that have mobilized domestic resources for disaster reduction activities and have facilitated the effective implementation of such activities, and encourages all developing countries concerned to continue in this direction;

5. Reaffirms the need to support the implementation of the Yokohama Strategy and its Plan of Action with particular regard to improving education and training in disaster reduction, including the creation of interdisciplinary and technical networking at all levels, for the purpose of capacity-building and human resources development in developing countries, in particular those that are prone to natural disasters, as well as least developed, small island developing and landlocked countries;

6. Welcomes the initiatives aimed at defining regional frameworks for disaster mitigation, such as the regional seminars held in Africa and the Mediterranean;

7. Stresses the need for synergy between the implementation of the Programme of Action for the Sustainable Development of Small Island Developing States[4] and that of the Yokohama Strategy and its Plan of Action as they relate to natural disaster reduction;
